I had the privilege of working under Kent Moyle at BioFire Dx which became bioMérieux for 4 years. Kent was very engaged with the work lives and concerned about the personal development of all his employees in both personal and professional ways. I believe he can speak volumes about my personality, work ethic, and design acumen.

**Justin Flack** – Creative Director at 1-800 Contacts

Justin and I worked together at 1-800 Contacts for several years. He has a long history of building great design teams, and I was lucky enough to build one with him during the time I was there. We have stayed in close contact since I left 1-800 Contacts in 2015. He has been both a coach, a mentor, and a great friend. He has followed my career as I have advanced in different capacities and will be a strong advocate for me as a designer and leader.

**Dan Harker** – Sr. Marketing Manager and Art Director at bioMérieux

I have been reporting to Dan for the last ~4 years while at bioMérieux and it has been a joy. I can honestly say I loved every day working at that job even when things were hard. He can speak to my job skills, professionalism, and personality. I would work with him again in a heartbeat!

**Dave Riley** – Creative Director at Lendio and Dental Select

Contact info: 801-755-6026  
g.davidriley@gmail.com

I worked closely with Dave Riley while at 1-800 Contacts/Glasses.com. We had a strong working relationship and have continued finding ways to keep in contact both professionally and personally. He has been a director, manager, and instructor. I know he has the experience to speak to my abilities and has full confidence in my potential.
